

The Global Health Initiative
at Chicago Lake Shore Medical Associates

Diversity Statement

It is the mission of the Global Health Initiative to help improve the lives of others in our own community and around the world by providing better access to healthcare services and supporting the professional development of future physicians. Diversity in our Board leadership and our grant making is fundamental and our mission is best realized when diversity goals are identified and met.

In recognition of the ongoing challenge of achieving and maintaining diversity in all facets of our work, we commit to finding ways to promote inclusion through our non-profit organizational culture, our core values and mission, and our goals. We will support diversity in all its forms, including but not limited to economic circumstance, ethnicity, gender, race, religion and sexual orientation.

We strive to make diversity and acceptance part of our daily approach to our non-profit philanthropic efforts and in its varied activities, organizational development, and measurable outcomes. In this regard, we will serve as leaders through action and purpose, helping to promote an inclusive and diverse community.

Adopted this 9th day of January, 2012
